SKILLS

• Languages:	Python, C, C++, Java
• Frameworks:	HTML, CSS, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
• Tools/Platforms:	MySQL, Microsoft Excel, Power BI, Git, GitHub, VS Code
• Core Skills:	DSA, Computer Networks, Operating Systems
• Soft Skills:	Problem-Solving, Team Collaboration, Communication, Adaptability

INTERNSHIP

Infosys Springboard Virtual Internship	Feb' 26 – Apr' 26
• Architected an AI-powered fake job detection platform using Flask, SQLAlchemy, REST APIs, and ML models, achieving 97.2% classification accuracy on 18K+ job postings.	
• Engineered a secure backend with JWT authentication and optimized database management workflows.	
• Constructed a responsive admin dashboard using Next.js, React, and Tailwind CSS for fraud monitoring.	
• Empowered organizations to detect fraudulent listings 3x faster through real-time activity tracking.	
Tech Stack Used: Next.js, Fast API, SQL, Tailwind CSS, Framer Motion	

PROJECTS

Music Genre Classification GitHub	Apr' 26 – May' 26
• Built a multiclass music genre classification system using Random Forest and XGBoost trained on 40K+ music tracks.	
• Processed raw audio metadata through feature engineering and scaling to eliminate data leakage and improve model generalization.	
• Achieved 57.8% classification accuracy using XGBoost with cross-validation and comparative evaluation against baseline Random Forest models.	
• Established genre prediction patterns using confusion matrices, feature importance visualization, and ensemble model evaluation techniques.	
Tech Stack Used: Python, NumPy, Pandas, Scikit-learn, XGBoost	
Airline Service Quality Analysis Dashboard GitHub	Oct' 25 – Dec' 25
• Created an interactive Power BI dashboard analyzing 10,000+ passenger records to evaluate customer satisfaction and service quality.	
• Enhanced data accuracy by 7% through data cleaning and validation using Excel and Power BI.	
• Designed 15+ KPI dashboards, slicers, and trend charts for delay, service, and feedback analysis.	
• Enabled data-driven decision-making by identifying service gaps and operational inefficiencies.	
Tech Stack Used: Microsoft Excel, Power BI	

TRAINING

A Hands On Approach To Data Science LPU Certificate	Jun' 25 – Jul' 25
• Attended an immersive summer training in Data Science, gaining hands-on experience in end-to-end data handling, analysis, and visualization workflows.	
• Developed proficiency in MySQL, Excel, Power BI, and Python through real-world data analysis projects.	
• Delivered an Avocado Ripeness Analysis project achieving 95% prediction accuracy on 500+ samples.	
• Applied EDA, visualization, and dashboarding techniques to generate actionable business insights.	
Tech Stack Used: SQL, Python, Microsoft Excel, Power BI	

CERTIFICATES

• Python for Data Science IBM Link	Apr' 26
• Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate Link	Mar' 26
• Data Analytics Essentials Cisco Networking Academy Link	Dec' 25
• Privacy and Security in Online Social Media NPTEL Link	Nov' 25
• Responsive Web Design Free Code Camp Link	Dec' 23

ACHIEVEMENTS

• Engaged as an Open Source Contributor at Girl Script Summer of Code 2026, contributing to real-world open-source development workflows.	May' 26
• Solved 100+ problems in LeetCode.	Apr' 26
• Earned a 5-star rating in C++ on HackerRank.	Feb' 26

EDUCATION

• Lovely Professional University <i>Bachelor of Technology - Computer Science and Engineering; CGPA: 7.13</i>	Phagwara, Punjab Since Aug' 23
• Sri Chaitanya Junior College <i>Intermediate; Percentage: 84.6</i>	Vishakhapatnam, Andhra Pradesh Jun' 21 – May' 22
• Sri Ramakrishna School <i>Matriculation; Percentage: 85.5</i>	Vishakhapatnam, Andhra Pradesh Jun' 19 – Mar' 20
