SKILLS

• Languages:	C++, Python
• Data Skills:	Data Cleaning, Exploratory Data Analysis, Data Visualization, ML Basics
• Libraries:	Numpy, Pandas, Matplotlib, Seaborn, Scikit-learn
• Databases/Tools:	MySQL, Microsoft Excel, Power BI
• Soft Skills:	Team Collaboration, Communication, Adaptability

INTERNSHIP

Infosys Springboard Certificate	Feb' 26 – Apr' 26
• Architected an AI-powered fake job detection platform using Python, FastAPI, and SQLite, achieving 97.2% classification accuracy on 18K+ job postings	
• Engineered a secure backend with JWT authentication and optimized database management workflows	
• Constructed a responsive admin dashboard using Next.js, React, and Tailwind CSS for fraud monitoring	
• Empowered organizations to detect fraudulent listings 3x faster through real-time activity tracking	
Tech Stack: Python, Fast API, SQLite, Tailwind CSS	

PROJECTS

Music Genre Classification GitHub	Apr' 26 – May' 26
• Built a multiclass music genre classification system using Random Forest and XGBoost trained on 40K+ music tracks	
• Processed raw audio metadata through feature engineering and scaling to eliminate data leakage and improve model generalization	
• Achieved 89% classification accuracy using XGBoost with cross-validation and comparative evaluation against baseline Random Forest model	
• Established genre prediction patterns using confusion matrices, feature importance visualization, and ensemble model evaluation techniques	
Tech Stack: Python, Random Forest, XGBoost	
Airline Service Quality Analysis Dashboard GitHub	Oct' 25 – Dec' 25
• Created an interactive Power BI dashboard analyzing 10K+ passenger records to evaluate service gaps and customer satisfaction trends across airline operations	
• Enhanced data accuracy by 7% through data cleaning and validation using Power BI	
• Designed an interactive dashboard featuring 10+ KPI cards, slicers, and trend visualizations to analyze flight delays, service quality, and passenger feedback	
• Enabled data-driven decision-making by identifying service gaps and operational inefficiencies	
Tech Stack: Power BI	

TRAINING

A Hands On Approach To Data Science LPU Certificate	Jun' 25 – Jul' 25
• Attended an immersive summer training in Data Science, gaining hands-on experience in end-to-end data handling, analysis, and visualization workflows	
• Developed proficiency in MySQL, Excel, Power BI, and Python through real-world data analysis projects	
• Delivered an Avocado Ripeness Analysis project achieving 95% prediction accuracy on 500+ samples	
• Applied EDA, visualization, and dashboarding techniques to generate actionable business insights	
Tech Stack: SQL, Python, Microsoft Excel, Power BI	

CERTIFICATES

• SQL Hacker Rank Link	Jul' 26
• Python for Data Science IBM Link	Apr' 26
• Data Analytics Essentials Cisco Networking Academy Link	Dec' 25
• Privacy and Security in Online Social Media NPTEL Link	Nov' 25
• Responsive Web Design Free Code Camp Link	Dec' 23

ACHIEVEMENTS

• Engaged as an Open Source Contributor at Girl Script Summer of Code 2026, contributing to real-world open-source development workflows	May' 26
• Solved 100+ problems in LeetCode	Apr' 26
• Earned a 5 -star rating in C++ on HackerRank	Feb' 26

EDUCATION

• Lovely Professional University <i>Bachelor of Technology - Computer Science and Engineering; CGPA: 7.41</i>	Phagwara, Punjab Since Aug' 23
• Sri Chaitanya Junior College <i>Intermediate; Percentage: 84.6</i>	Vishakhapatnam, Andhra Pradesh Jun' 21 – May' 22
• Sri Ramakrishna School <i>Matriculation; Percentage: 85.5</i>	Vishakhapatnam, Andhra Pradesh Jun' 19 – Mar' 20
